

How to Install and use Teams for online class?

1. Please go to following Microsoft website, click on “Download for Desktop” button to download the Microsoft Teams for your Desktop or Laptop. If you are using Mobile phone or tablets, then please click on “Download for Mobile” button.

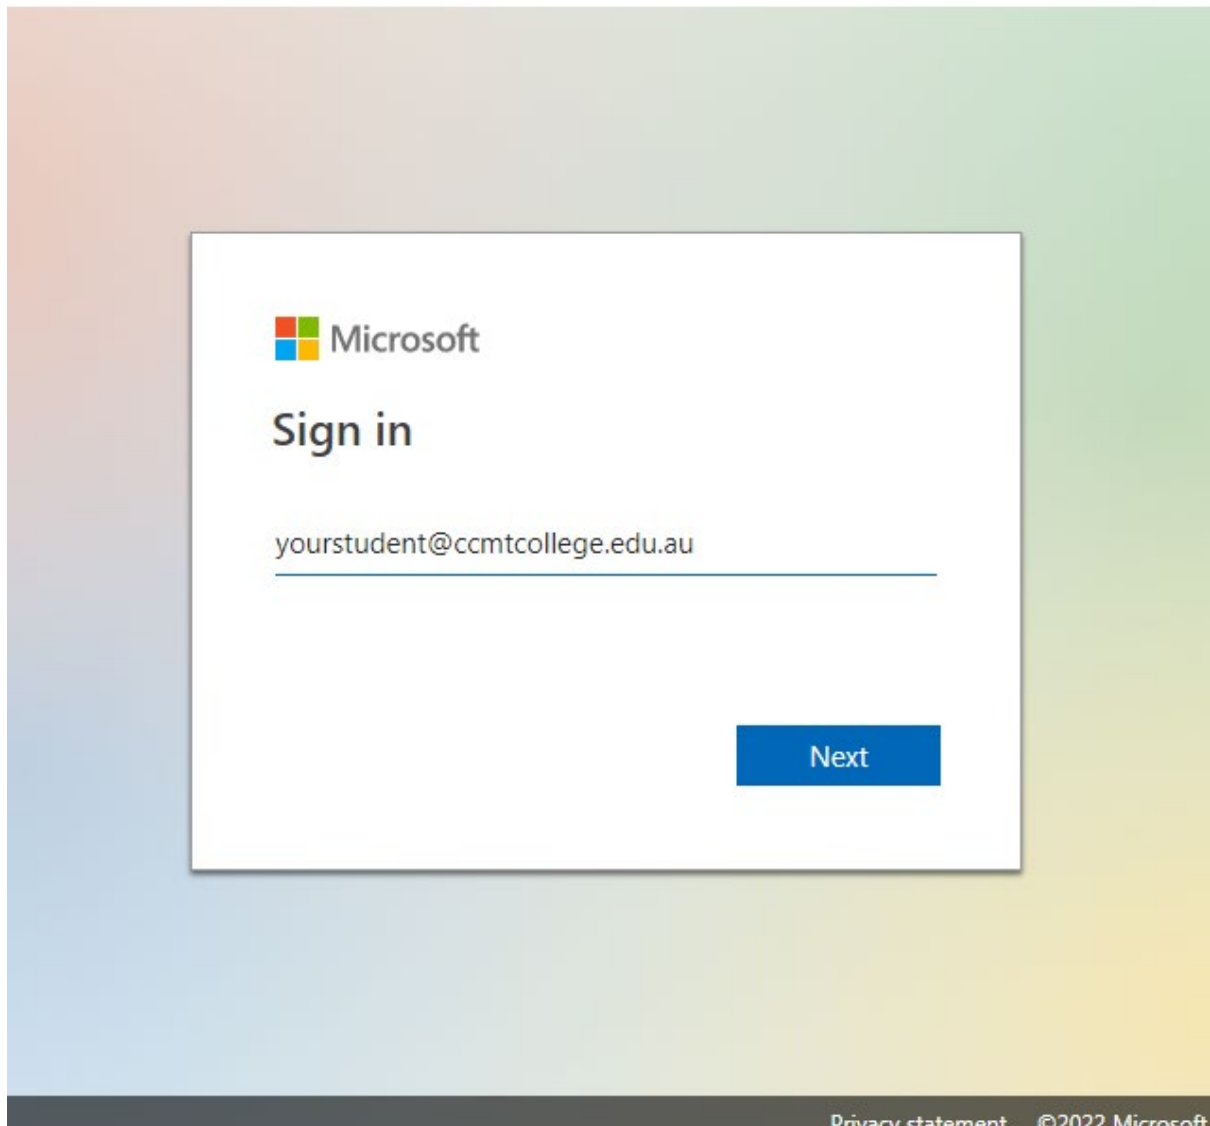

2. Click Teams for work or School and download the Teams.

3. Once the Teams is download, click on the downloaded file to install the Teams application.

4. Once the Teams application is fully installed, please sign into Teams using CCMT College provided user details.

5. Once you are logged into Teams using the provided details, now you are ready to use Teams for online class. Second step is to get the link to join online class. CCMT College has the team link created and proved in your online learning portal. Once you click on the provided teams link, you are ready to join online class.
